PROFESSIONAL SUMMARY

Data Analyst with hands-on experience across data analysis and data science internships (Digital Egypt Pioneers Initiative (DEPI) and GCI World), coursework in data analysis and data science (EraaSoft, Instant), and freelance analytics work (Khamsat, Nafezly), skilled in Excel, SQL, Power BI, and Python. Delivered 12+ dashboards and 2+ SQL Server database projects, analyzing 5,600+ records and answering 50+ business questions, turning raw, real-world datasets into decision-ready insights.

TECHNICAL SKILLS

Programming Languages: SQL, Python, HTML, JavaScript, CSS

Data Analysis & BI: Power BI, Power Query, Power Pivot, DAX, Excel, pandas, NumPy, Matplotlib, Seaborn, Plotly, scikit-learn

Databases: SQL Server, MySQL, Database Design (ER Diagrams, Relational Modeling)

Tools: Git, GitHub, Jupyter Notebook, VS Code, Figma

Core Competencies: Data Cleaning, Data Modeling, Dashboard Design, Exploratory Data Analysis, Business Reporting

Soft Skills: Fast Learner, Analytical Problem-Solving, Attention to Detail, Flexible, Cooperative, Time Management, Adaptive

EXPERIENCE

Data Science Intern — Matsuo-Iwasawa Lab, University of Tokyo

Aug 2026 – Present

Japan · Remote · Python

- Remote internship applying Python to data science tasks for the lab.

AI & Data Science — Instant Software Solutions

Aug 2026 – Present

Egypt · Remote · Python

- Remote course applying Python across AI and data science workflows.

Freelancer — Nafezly | نفذلي

Jul 2026 – Present

Remote · Data Analysis, Microsoft Excel +7 skills

- Delivering freelance data analysis projects for clients using Excel, Python, SQL and related BI tools.

Freelancer — Khamsat | خمسات

Jul 2026 – Present

Remote · Data Analysis, Python +7 skills

- Delivering freelance data analysis projects for clients using Excel, Python, SQL and related BI tools.

Data Analyst Intern — Digital Egypt Pioneers Initiative (DEPI)

Oct 2025 – Jul 2026

Full project portfolio on GitHub: github.com/nourhankha1ifa/Data_Analysis

- Designed 5 Power BI dashboards — Amazon orders/catalog (4-page), hospital analytics, survey/HR analytics, sales, and order analysis — plus a constrained SQL Server database (SD32-Company).
- Built two Excel dashboards: sales performance analyzing profit, discounts, and production cost across 3,678+ orders; and hotel guest feedback covering 1,948+ responses unpivoted into 15,584+ rows.
- Cleaned a messy multi-source sales export in Python, deduplicating on composite keys and running univariate-to-multivariate analysis to surface top-10 customers and monthly trends.

Data Analyst Intern — EraaSoft

Sep 2025 – Apr 2026

Full project portfolio on GitHub: github.com/nourhankha1ifa/Data_Analysis

- Built a 7-table Retail Sales Management System in SQL Server, answering 50 business questions.
- Built 5 dashboards — Power BI (Kickstarter, AdventureWorks Sales, Sales Performance) and Excel (Superstore sales, multi-branch retail).
- Cleaned an HR dataset in Python/pandas, filling missing salaries, removing duplicates, and engineering 7 new features (experience level, salary bands, bonus/compensation, hire year/month).

EDUCATION

B.Sc. in Data Science — Helwan National University

oct 2023 - Expected: 2027

Faculty of Computer Science and Information Technology

Major: Data Science | GPA: 3.10 / 4.0 | Senior (4th Year)

CERTIFICATIONS

- Data Analysis Course — EraaSoft & Egyptian Engineers Syndicate, accredited certificate [April 2025]
- Data Analysis Track (Certificate 1 & 2) — Digital Egypt Pioneers Initiative (DEPI) [July 2026]
- CS50: Intro to Computer Science with Python & CS50: Intro to Databases with SQL — Harvard University [July 2026]
- CS50: Intro to Artificial Intelligence with Python — Harvard University (edX) [In Progress]
